PERSONAL PROJECTS

Technokhoj2k24 (01/2024 - 02/2024)

- Technokhoj2k24 is an innovative platform designed to foster technological exploration and learning. Built with a focus on interactivity and user engagement, this project aims to connect tech enthusiasts with the latest trends, tutorials, and challenges in the tech world.

Online Auction System (12/2019 - 04/2020)

- The Online Auction System is a dynamic web application developed using PHP that facilitates secure and transparent bidding on listed items. Key features include user authentication, real-time bidding, automated winner selection, and integrated payment processing.

Tic Tac Toe (07/2019 - 07/2019)

- A classic Tic Tac Toe game implemented as a web application. Features include an interactive 3x3 grid, player turns with visual effects, dynamic win and draw detection, and a stylish celebratory message. Built using HTML, CSS, and JavaScript, the game is designed to be responsive and user-friendly.
